

Essential Basic

Quality Foam Mattress

A cost effective solution for comfort
and pressure redistribution

The new **Essential Basic** mattress offers the user a comfortable and supportive surface. This is an ideal entry level mattress for individuals who do not require therapy for pressure ulcer prevention.

- ▶ Multi-stretch polyurethane fabric cover
- ▶ Zipped around 3 sides for ease of inspection and laundering

Cover

- ▶ The outer cover is a multi stretch, water resistant, polyurethane fabric providing excellent recovery and durability, which helps to reduce shear and friction forces. The cover also has a white inner liner allowing easy inspection for strikethrough or other cover damage.

Quality Foam

- ▶ Durable quality foam provides comfortable support

Design

- ▶ The **Essential Basic** mattress has an innovative and modern cover design with the simple wave giving the mattress a fresh and current feel.

1. *Essential nursing care is pivotal in pressure ulcer prevention. This mattress will positively contribute to the outcome of a pressure ulcer prevention care plan. Education, clinical judgement and action based planning based on vulnerability are fundamental factors in the prevention of pressure ulcers. A range of assessment scales can be used as a formal method of assessing risk from pressure ulcer development, and should be used in conjunction with an informal assessment (informed nursing judgement).*
